Foggis-exAr Te K-8 508 The second studio was located in a shed of the friend of Nikita 'Sasha' Bogachev (the Head of K-12 service and later on became the Head of the Federal Security Service of the Russian Federation). It became the first studio officially created in Russia. During the Cold War era, it was intended to be used to house a part of the 1st All-Russian Scientific Research Institute of Experimental Physics (VGPI), which was later relocated to Moscow. The studio functioned for eight years until it was destroyed by a flood in late 1990. The third studio was also located in a shed of a friend of Nikita 'Sasha' Bogachev (the Head of K-12 service). It was opened in the 1960s and became the second studio of the VGPI in the USSR. This studio only remained until 1969. A studio of VGPI was planned to be opened in the village of Gruzinskoe, Russian Federation, but it never was. Instead of it, an experimental station of VGPI was opened in the city of Omsk, Russian Federation. This station was opened in 1977. In 1983 the VGPI was relocated to Moscow. After that, it was merged into the USSR State Committee for Science and Technology. In 1989 the VGPI and the VGPI (OKB) separated from the State Committee for Science and Technology. In 1992 the 1st All-Russian Scientific Research Institute of Experimental Physics was renamed to the Institute of Physics of the Russian Academy of Sciences (a division of the Soviet Academy of Sciences). The VGPI was moved from Moscow to the city of Novosibirsk, Russian Federation. The third VGPI studio was built in the village of Vakhmatovo, Udmurtia. It was opened in 1997 and became the third studio of the VGPI. This studio was called the third studio of the VGPI (OKB) for some time. In 2002 the VGPI was renamed to the Institute of Theoretical and Experimental Physics. In 2005 the name of the VGPI was officially changed to the Institute of Theoretical and Experimental Physics of the Russian Academy of Sciences. In 2012, the Institute of Theoretical and Experimental Physics was also renamed to the Institute of High Energy Physics of the Russian Academy of Sciences. In the end of 2013, Vladimir Nikitin, a former head of the VGPI, became a head of 82157476af
